Course Name: MPC(Maths, Physics, Chemistry)

Aggregate: 10.00 CGPA

2017-2018

BOARD OF SECONDARY EDUCATION

School Name: Universal School.

Aggregate: 9.5 CGPA

PROJECTS

Online Payment Fraud Detection

To identify online payment fraud with machine learning, we need to train a machine learning model for classifying fraudulent and non-fraudulent payments. For this, we need a dataset containing information about online payment fraud, so that we can understand what type of transactions lead to fraud.

Student Result Management System

The main objective of this project is to provide results to the students in a simple way.The students can get results through the college/institution website through their roll numbers. By analysing the result status and applying the standard calculation followed by the University the result are displayed with individual scores and the equivalent percentage.

Activities

- Worked as intern for 8 weeks period of virtual internship conducted by SMARTBRIDGE.
- Completed internship on Data Science And AI full Practical Training Program Under Insysness Company.

Certifications

- Certification on Google Data Analytics.
- Certified in NPTEL(Introduction to Internet Of Things) by IIT Kharagpur.
- Certified as Salesforce Developer.

Declarations

- I here by declare that the details mentioned above are in accordance with the truth and fact as per my knowledge and i hold the responsibility for the correctness of the mentioned details.
